- Description of significant features, and integrated resource management considerations.

Basal Area - Distribution of Cut (Complete below or attach a forest operations silvicultural prescription)

Prism Tally: _____ m² / ha

Basal Area Factor: _____

Tree Size (cm)	Actual BA (m2/ha)			BA to Cut (m2/ha)			Actual Residual BA (m2/ha)			Ideal BA
	AGS	UGS	Total	AGS	UGS	Total	AGS	UGS	Total	
10 - 24										4
26-40										5
42-48										5
50-60										4
62 +										2
Total										20

If the landowner is selling standing timber to a logger for harvesting has:	Yes	No
a contract been signed between landowner and contractor?		
the contractor provided proof of WSIB coverage for employees /liability insurance coverage?		
the contractor provided proof of cutter/skidder certification for all employees and themselves?		
the main skid trail been delineated?		
Have arrangements been made to harvest the fuelwood from tree tops?		

I agree that operations will be in accordance with the provisions of Forest Conservation By-law No. 5738 of the County of Middlesex and that I am familiar with the contents and requirements of this By-law and acknowledge having received a copy thereof. I further agree that any tree harvesting will be in accordance with Good Forestry Practices.

Further, I agree to contact the Officer or the Clerk 14 days prior to commencing harvesting of trees. In the event of a mail disruption, this form may be delivered to any local municipal office.
